

BERKELEY: CANCER RESEARCH COORDINATING COMMITTEE
OFFICE OF THE EXECUTIVE SECRETARY
230 EARL WARREN HALL

January 3, 1963

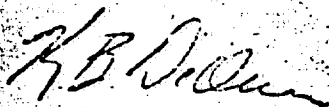

Dr. J.F. Thomas
Department of Sanitary Engineering
Berkeley

Dear Doctor Thomas:

The Cancer Research Committee has reviewed your application, and I regret to inform you that your request has not been approved.

It is the sense of the Committee that the interpretive problems underlying exposure of bacteria to hydrocarbons are too great to approve a new grant application in this subject without full discussion by the Committee. It is therefore suggested that your request be resubmitted when the annual notices are sent out in February for consideration of applications by the Committee at its regular spring meeting.

Yours sincerely,

K.B. DE OME
Executive Secretary,
Cancer Research Coordinating Committee
